

The Ivanhoe Homework Process

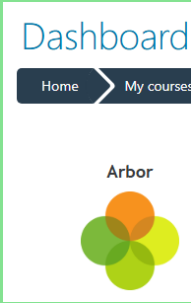

How can I see what Homework I have?

Log into your Arbor Student Portal regularly.

You can do this from Moodle, or there is an app available.

You will not be able to log into the app unless you have already logged into the Student Portal.

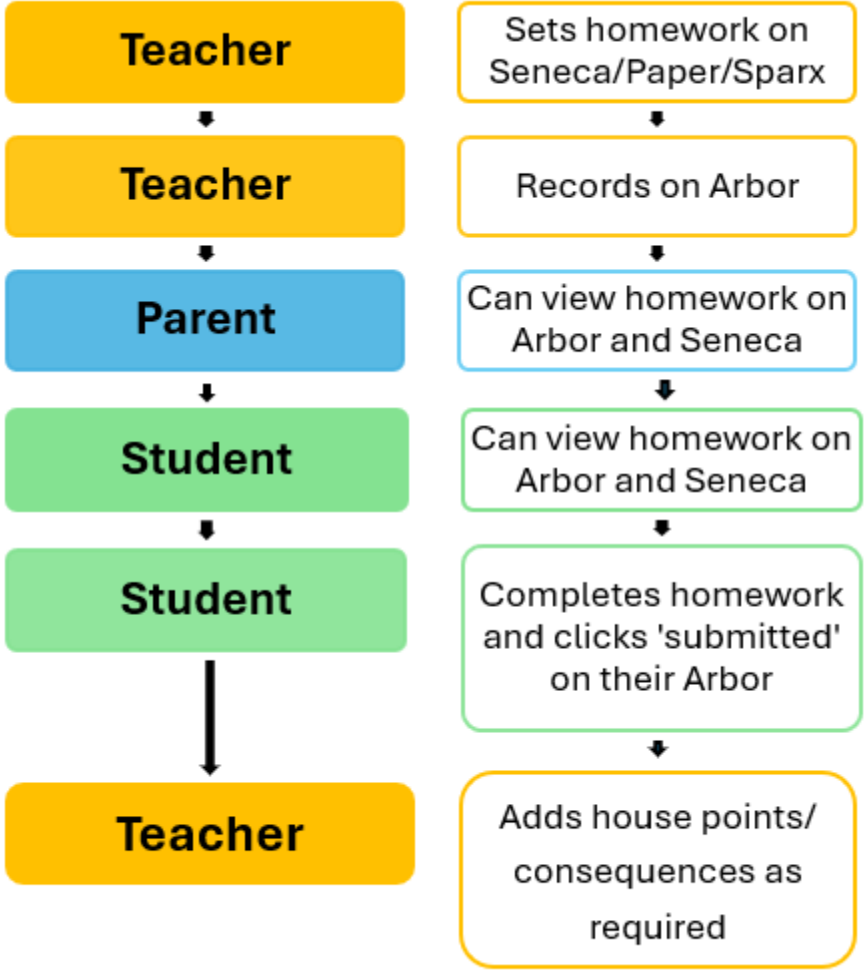

On your Arbor homepage, you will see your timetable, attendance, house points and consequences.

You will also have a list of the homework you have been set.

How do I clear homework from my list?

When you open each homework assignment, you will see a page telling you what you need to do, and when the work is due in.

Follow the instructions to do your homework – speak to your teacher BEFORE the due date if you have any problems.

When homework is complete, you will need to click the green ‘Mark as submitted’ button at the bottom. This will remove it from your homework list.

The screenshot shows the 'Assignment Details' page for 'Enterprise: Year 11: 11C/Et'. The page includes fields for Course, Title, Due lesson, Status, Student instructions, and Notes. The 'Student instructions' field contains a link to the assignment on Seneca. Below the details is a 'My Submissions' section with a large circular arrow icon and the text 'Drag or click to upload'. At the bottom right, there is a green button labeled 'Mark as submitted'.

Creating a routine

Get used to checking your Arbor regularly to see what homework has been set for you.

Think about your routine – will you click the Submitted button when you have done your homework, or when you have actually given it to the teacher? What will help you remember best?

Why do teachers set homework?

Evidence shows that students who work hard on homework can make up to 5 months more progress than those who don't.

Homework can help you to:

- prepare for lessons you have coming up in the future (e.g. practicing vocabulary in French)
- practice something you have already learned (e.g. a Seneca quiz about a previous topic)
- See if you can apply knowledge on your own, rather with support
